5310. HEALTH SERVICES (M)

The Board of Education requires that all pupils enrolled in this district submit to physical examinations in accordance with law and rules of the State Board of Education and State Department of Health to ensure that the learning potential of each child is not diminished by a remediable physical disability and that the school community is protected from the spread of communicable disease.

The Board will appoint at least one school physician with assigned responsibilities as outlined in N.J.A.C. 6A:16-2.1(a) through (d) and at least one full-time equivalent certified nurse with assigned responsibilities as outlined in N.J.A.C. 6A:16-2.1(e) and (f).

A pupil who presents a statement signed by his/her parent(s) or legal guardian(s) that required examinations interfere with the free exercise of his/her religious beliefs shall be examined only to the extent necessary to determine whether the pupil is ill or infected with a communicable disease or under the influence of a drug or is disabled or is fit to participate in any health, safety, or physical education course required by law.

The results of any physical examinations and screenings conducted by the school district physician and/or nursing staff shall be reported to the pupil's parent(s) or legal guardian(s) when any condition is identified that requires follow-up by a physician or family health provider.

The Superintendent shall instruct all teaching staff members to observe pupils continually for conditions that indicate a physical defect or disability and to report such conditions promptly to the school nurse.

Health Examinations

Every pupil shall be examined upon entry to school. The physical examination shall be conducted at the *medical home* of the pupil, and a full report must be sent to the school. If the pupil does not have a medical home, the district will provide the examination at the school physician's office or other appropriately equipped office. The examination will be documented on a form approved by the Commissioner of Education.

The certified school nurse will notify parents of the importance of obtaining subsequent medical examinations of the pupil at least one time during each developmental stage at early childhood (grades pre-school through grade three), pre-adolescence (grades four through six), and adolescence (grades seven through twelve).

If any deviations in health status are detected, the advanced practice nurse shall refer the pupil to the collaborating physician. An examination by a physician or advanced practice nurse other than the school physician shall be at no expense to the Board; the report of any such examination shall be given to the school physician on a form furnished by the Board.

Pupil health examinations shall include, in accordance with district regulations, immunizations; the pupil's medical history; health screenings including height, weight, hearing, blood pressure, and vision screenings; and physical examination of the pupil's body.

Pupil examinations/physicals and pupil athletic physicals shall not require screening or disclosure of HIV status.

Each candidate for a place on a school athletic squad or team shall submit to a medical examination conducted in accordance with Policy No. 2431 and rules of the State Board of Education.

Pupils referred for evaluation for eligibility for special education and/or related services shall be examined in accordance with Policy No. 2460 and Regulation No. 2460.7 and rules of the State Board of Education.

Pupils suspected of being under the influence of alcohol, drugs, or anabolic steroids shall be examined in accordance with Policy No. 5530 and rules of the State Board of Education.

Tuberculin Screening

Tuberculin screening shall be conducted as required by the State Department of Health.

Scoliosis Screening

The district shall provide for the biennial scoliosis examination of every pupil between the ages of 10 and 18 by a school employee trained in scoliosis screening. A pupil shall be exempt from the examination on the written request of the parent(s) or legal guardian(s).

Audiometric Screening

Audiometric screening will be conducted for pupils enrolled in prekindergarten programs; pupils enrolled in grades Kindergarten, 1, 2, 3, 4, 6, 8, and 10. Audiometric screening will also be conducted for pupils entering the district with no recent record of hearing screening; pupils at risk for hearing impairments; pupils referred to the child study team for evaluation; pupils referred for screening by a teacher, parent(s) or legal guardian(s), at the pupil's request; and pupils who are at risk for noise exposure. Pupils are at risk for hearing impairments if they have communication disorders, cleft palate, allergies, frequent upper respiratory or middle ear infections; take ototoxic medication; or are exposed to sudden or continuous loud noises.

Audiometric screening will be conducted in accordance with the New Jersey Department of Education School Health Services Guidelines.

Hearing Aid Screening and FM Hearing Aid System

Haddon Township School District insures that the hearing aids worn by pupils classified as deaf and/or hard of hearing within their schools are functioning properly.

In order to insure proper functioning of hearing aids worn by deaf and/or hard of hearing children, the following procedures shall be followed:

1. The classroom teacher will maintain regular contact with the speech therapist to insure adequate functioning of aids.
2. Teachers of pupils who wear hearing aids will be in-serviced by the speech therapist and/or consulting audiologist as necessary.

3. Hearing aids are monitored by the pupil's teacher to insure that they are functioning properly.
4. Batteries are replaced by teachers as necessary.
5. The Haddon Township School District provides for regular audio logical assessment of those pupils for the purpose of checking the functioning and appropriateness of the hearing aid.
6. The speech therapist will maintain regular contact with the pupils parent(s) and/or legal guardian(s) to determine the care and function of the hearing aid.

Vision Screening

Vision screening will be conducted, at a minimum, to pupils in grades Pre-K, Kindergarten, 2, 4, 6, 8 and 10. Vision screening will also be conducted for: all new pupils; all pupils registering for driver education; all teacher referred pupils who show signs or symptoms of visual problems; all pupils at high risk of having vision disorders (i.e. pupils with disabilities and special needs); and all pupils referred to the Child Study Team for evaluation.

Vision screening will be conducted in accordance with the New Jersey Department of Education School Health Services Guidelines.

School Nursing Services Plan

The Superintendent, in consultation with the school physician and Certified Head Nurse, shall submit the School Nursing Services Plan to the Board for approval at a regularly scheduled public meeting in accordance with N.J.A.C. 6A:16-2.2(f)1. This Plan shall be submitted to the County Superintendent for review and approval annually as part of QSAC with evidence of public discussion and the Board of Education approval.

Health Records N.J.A.C. 6A:16-1.5 et seq.

Pupil health records shall be maintained in accordance with the requirements of N.J.A.C. 6A:16-1.5. Information in the pupil's health record will only be shared in accordance with the restrictions outlined in N.J.A.C. 6A:16-1.5(c). Access to a pupil's health record to licensed medical personnel will be limited only to the extent necessary to enable the licensed medical personnel to perform their duties.

Nursing Services to Nonpublic School Pupils

Nursing services to nonpublic school pupils will be provided pursuant to N.J.A.C. 6:16-2.4 et seq.
