7250 SCHOOL AND FACILITY NAMES

The Haddon Township Board of Education shall have the responsibility of naming facilities. Facilities which may be named may include, but are not limited to, schools, offices, athletic fields, or special purpose rooms.

Facility names shall be descriptive and/or significant to the schools and community. The Board recognizes the importance for the entire community to participate in the facility naming process.

Procedure

If the Board intends to name a facility, the intention shall be announced at a public meeting. Members of the community shall be invited to make recommendations for the facility name. Recommendations shall be submitted, in writing, to the Assistant Superintendent for Business/Board Secretary of the Board of Education. No earlier than the next regularly scheduled monthly meeting of the Board, recommendations received by the Assistant Superintendent for Business/Board Secretary will be reviewed by the Board and shared with the community.

After Board and public discussion of the community recommendations, the Board of Education will approve a name for the facility.

The Board shall always use the above procedure when opening a new facility.

Adopted: December 16, 2010
