

**Annual AHERA Notification
Haddon Township School District
2014-2015 School year**

Dear Parents, Guardians, and Staff,

In accordance with the Asbestos Hazards Emergency Response Act (AHERA), we are required to notify parents, guardians and staff of the availability of the asbestos management plans and the response action we are taking to maintain the integrity of the asbestos in our school.

Since the original inspection took place and the condition of the asbestos was evaluated all appropriate actions have been taken to ensure that all asbestos is maintained in good condition.

Every six months a periodic surveillance of the building occurs. Additionally, formal re-inspections are completed every three years since. Copies of inspections are available in the maintenance office.

If you wish to review The Three Year Asbestos Management Plan it is available in the maintenance office.

Last year several classrooms and the Girls Locker Room had asbestos tile removed by a certified contractor. We are planning on contracting the removal of asbestos in several more classrooms this year as well as the Athletic Offices and storage rooms in the cafeteria.
